

JAGUARS IN JEOPARDY

Thanks to your support, we have captured incredible pictures and exceptional footage of the iconic jaguar within the first four months of our research in Panama.

- A glimpse into Kaminando's findings
- ∞ Study area covered: ~ 180 km²
 - ∞ Number of Camera Trap stations: 52 (each station set ~2km apart)
 - ∞ The imagery data includes four species of cats (jaguar, ocelot, puma, jaguarundi)

Our featured Jaguar, visit: <https://youtu.be/ySJTTBzw7uU> AND kaminando.org/news
